

VEHICLE REAR VIEW CAMERA & MIRROR KIT

SAFE REVERSING

Feel safer reversing with increased awareness and clearly see the obstacles behind you. These camera systems provides a clear bright extra eye in your vehicles blind spot and also allows for a better view of the traffic behind while driving. The rear view camera system not only makes working with a fleet vehicle easier, but it also greatly increases the overall safety of those around you.

The mirror monitor has a high resolution for a sharp and clear image. 170° degree field of vision from each camera gives the driver a wide angled view.

PRODUCT NUMBER

- **M67000226/S:** Reverse Camera Twin Kit
