

UNDERFLOOR STORAGE (FOR TOOL & LADDER)

SECURE STORAGE SPACE

Minecorp have developed a secure under floor storage for their canopy, running the length of the underside of the canopy floor. Suitable for ladder storage (ladders to be under 2.3m in height) but capable for storage for a vast array of other longer length tools.

Lockable latches on the door and a door ajar alarm system ensure security and piece of mind. The door of the storage locker is powder coated to match the canopy and protect against the elements.

FEATURES

- Suits storage pro CSM canopy 2400 in length
