

AIR COMPRESSOR MOUNT (UNDER BONNET-PX RANGER ONLY)

ADJUST YOUR TYRE PRESSURE WITH EASE

Minecorp have developed a custom mount for the compact ARB compressor. Neatly fitting under the bonnet of the Ford PX Ranger. A compressor provides many advantages, to run on board air activated equipment such as differential lockers whilst also allowing the vehicle operator to set tyres to a pressure that is appropriate to the terrain.

NOTE: Compatible with ARB CKSA12 & CKMA12 Compressors

PRODUCT NUMBER

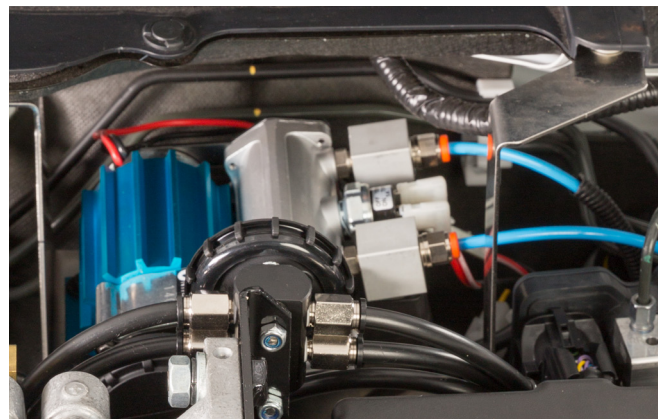

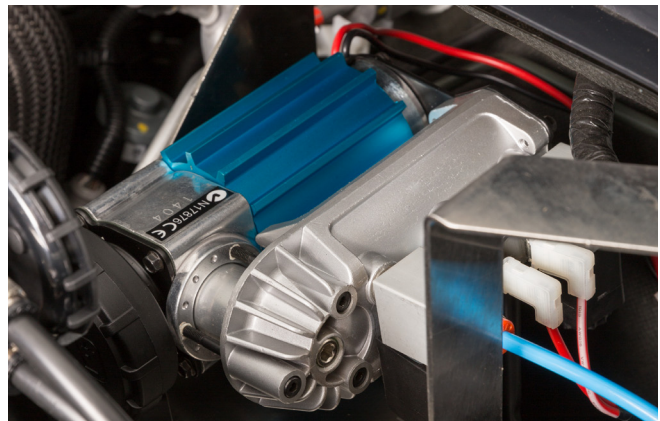

- **M79070016/S**

FEATURES

- CNC laser cut and folded 2mm stainless steel mounting system
- Custom made mount specifically for Ford PX Ranger & ARB Compressor
- Safe and secure storage location
- Easily accessible for use and serviceability
