

UNDERBELLY ARMOUR

THE FIRST LINE OF DEFENCE AGAINST THE HARSHTEST ENVIRONMENTS

When taking any vehicle off road there is a significant risk of damage to the often exposed underbelly. Key components are susceptible to being struck or damaged by rough terrain. The all new Underbelly Armour from Minecorp provides a strong and durable barrier to protect the vital workings of the vehicle.

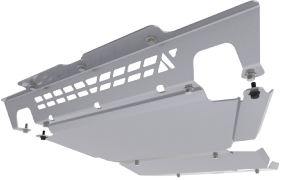

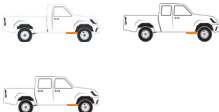

Made from tough, lightweight 4mm aluminium, the Underbelly Armour will provide the essential protection a vehicle needs. It also has a practical yet stylish, powder coated finish.

Installation couldn't be simpler, a fitting kit is supplied and once the factory parts (inc bolts) of the vehicle are removed, the Underbelly Armour cleanly bolts through existing factory holes. There is no need for drilling or welding.

UNDERBELLY ARMOUR	PRODUCT DESCRIPTION	FEATURES
	<p>M60070034/S FORD PX RANGER / MAZDA BT50 2011+ (PB-0049)</p> 	<ul style="list-style-type: none"> • Constructed from high grade, tough, strong and very light weight 4mm aluminium • Multiple mounting on existing factory locations • Quality powder coated finish • Quick & easy installation • No drilling required
	<p>M60500020/S TOYOTA HILUX 4X4 2005+ (PB-0060)</p> 	<ul style="list-style-type: none"> • Protects the radiator, torsion bar and engine sump • Constructed from high grade tough 3mm steel for high strength • Primed and powder coated for high surface/corrosion protection • Air flow slots included for reduced heat build up of mechanical parts • Utilises all factory mount points to ensure quick and easy fitting • Fitting kit included • Suits Minecorp Toyota Hilux recovery point M60500044/S
