

# MINECORP SEAT COVERS

## QUALITY SEAT PROTECTION FOR 4X4'S, SUV'S AND LIGHT VEHICLES

Vehicles used in fleet, mining, construction and trade working environments can have their interiors harshly treated with rugged use. Seats are commonly worn thin and become excessively frayed making them uncomfortable and unsafe to be in, this also highly de-values the vehicle.

Minecorp can supply high quality seat covers for use in harsh conditions. The soft and comfortable but highly durable 12 ounce polyester-cotton canvas is hard wearing, breathable, water proof and UV stable. A second/ double layer of canvas in high wear areas and a second/third full internal soft lining gives extreme seat protection. These seat covers fit very neatly with buckle strap tensioners giving a comfortable ride for the driver and passengers alike. Vehicles with seat mounted SRS air bags have specialty designed stitching in the side of the cover to allow the air bag to deploy safely, which have been independently tested to ensure compliance to Australian Design Rules.

### PRODUCT NUMBER

- **VARIOUS**

### FEATURES

- Highly durable 450gsm 12oz polyester/cotton canvas
- Fully DuPont Teflon impregnated
- Double layer of canvas to high wear areas
- Fully lined with a layer of soft Poly Cotton fabric for ultimate seat protection
- 100% waterproof and UV resistant
