

LED WORK LIGHT

LOW POWER CONSUMPTION - HIGH LIGHT OUTPUT

Minecorp's new LED work light is the solution for operating at night or in low light levels. This engineered LED light has low power consumption but high light output. The metalised free form reflector and high output LEDs provide a bright, white light source and a wide flood beam to illuminate the work area. A water and dust resistant switch built into the light housing provides flexibility to be able to turn lights on and off at the source. Combined with features such as die cast aluminium construction, IP68 water and dust rating, polarity and vibration protection and stainless steel fittings make this a rugged light for use in harsh conditions.

PRODUCT NUMBER

- **M68003011/S** : Pair Of Minecorp LED Work Lights
- **M68000085/S** : LED Work Light

MINECORP LED WORK LIGHTS

FEATURES

- 9 high output 3W LEDs
- Wide flood beam pattern
