

# SPARE WHEEL MOUNT

## SECURE WHEEL CARRYING CAPABILITY

Product summary The Minecorp Adjustable Spare Wheel Mount has been designed to securely retain the spare wheel whilst taking up the minimum amount of space on the vehicle's tray. The Adjustable Spare Wheel Mount comes ready for quick installation. The mounting bracket easily bolts into place using the supplied hardware kit. The self locating centre cone is capable of holding a wide range of wheel sizes and is adjustable by hand. The mount can be orientated to suit the OEM factory sized tyres or rotated to suit the larger diameter and tyre upgrades to make it truly universal.

## PRODUCT NUMBER

- **M80000118/S**
