

MINEBAR / LIGHTBAR

LIGHTING SOLUTIONS

The Minecorp light bar was developed to improve the safety of the vehicle operator and is customisable to display reverse, brake, indicator, tail, work and class one amber rotator lights as well as a reverse beacon. The low profile design minimises airflow resistance reducing vehicle drag when travelling at high speeds.

The S/T/I/R lights are sealed LED units. The reverse alarm is a minimum of 82dB. The beacon is a strobe, class 1 output amber rotating beacon.

FEATURES

- Amber Strobe
- LED S/T/I/R Lights
- Reverse Alarm
- Carling Rocker
- Deutsch Plug
- Improves vehicle visibility
- Easy to use, versatile mounting channel system
