

GAS BOTTLE RESTRAINTS

VERSATILE STORAGE SOLUTIONS

The Minecorp Gas Bottle Restraints are suitable for a range of gas bottles. They can be easily mounted in a variety of locations and the brackets supplied in either galvanised or stainless steel.

The restraints have been designed to safely keep cylinders secure whilst your work vehicle is in transit. Cylinders are easy to change over using the 'one pull' buckle strap and lifting the cylinder is not necessary, preventing any potential injuries.

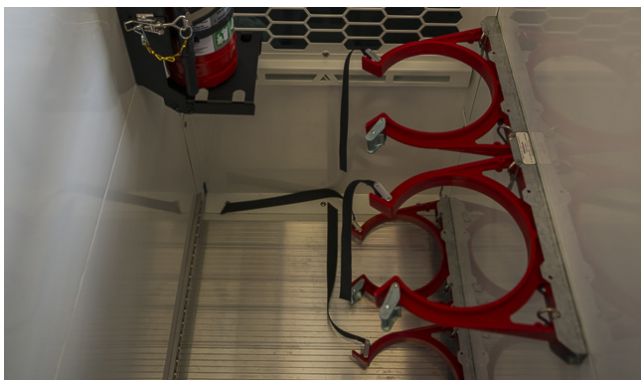

Please speak to a member of sales for more information. We have many restraint options to allow for secure storage of different weight and sized gas bottles.

PRODUCT NUMBER

- **M79000332/S** : Gas Bottle Chocks Upper & Lower Pair Suit D & E Size Bottles 160-230mm (Toolbox)
