

4 DRAWER UNIT SUITS MINECORP CANOPY

PRACTICAL AND TOUGH

The Minecorp four drawer unit comprises of two small and two large stainless steel constructed drawers, encased in 2mm thick stainless steel frame and aluminium shrouds. This clean and smart looking draw unit has been designed as an accessory to go in any canopy setup, in any position, giving your build versatility. The base drawer is positioned high enough to be able to accommodate a **fold down work bench** in front of the unit. Each drawer is also supplied with a set of adjustable dividers, allowing each drawer to be split into 3 segments. Additional or replacement dividers can be purchased separately.

FEATURES

- Stylish stainless steel internal construction for the ultimate protection against corrosion
- Specialised latch allows for easy opening in a one handed operation
- Drawers easy to remove for maintenance purposes
- Robust nylon runners on drawer system
- Two medium draws (90H) and two large draws (120H)
- Self lubricating, anti-seizing nylon runner drawer system
- 2 removable dividers per drawer for convenient organisation
