

FRONT DEFLECTION BRUSH HOLDEN COLORADO 2012+

PRODUCT BULLETINS
PB - 0259_A

SOLUTIONS FOR HARSH ENVIRONMENTS

Minecorp have designed a front deflection brush for use in harsh environments. Made to reduce the short and long term damaging effects of dirty/corrosive terrain. The deflection brush easily mounts on the vehicles recovery points (M79130007/S also available from Minecorp) meaning no further drilling is required. A Sahara Black powder coating has been applied for durability and a professional looking finish.

FEATURES

- Mild Steel mounts welded to frame, the cover panel is made from 2mm aluminium
- Fitting is a simple two stage process; the main frame bolts to pre-installed recovery points and then the cover panel and brush is bolted in place
- Deflects mud away from headlights & windscreen
- Brush is made up of three sections with 300mm long bristles
- Designed to deflect rocks, mud and other debris from doing damage and preventing build up under the vehicle
- Suitable for both Single and Dual Cab Colorado's 2012+
