

MINECORP RADIANCE LED SAFETY FLAG

SAFETY & VISIBILITY

Vehicle mounted safety flags are an essential item to improve safety when operating a vehicle on work sites. Designed to significantly improve vehicle visibility when operating alongside large vehicles and heavy machinery. Minecorp's NEW Radiance LED Safety Flags are made from heavy duty fibreglass with stainless steel quick release fittings. LED's line the complete length of the flag giving off a bright red illumination for superior visibility and safety.

Minecorp has available a variety of different brackets to assist in mounting a Radiance Safety Flag to your vehicle.
