\* Denotes Forward Guard Mount but Primary Option for Vehicle

Minecorp's Guard Mount Aerial Brackets give you the option of mounting an aerial to your vehicle in a quick and easy manner. The mount bolts through OE holes under the bonnet and anti-abrasive tape is supplied to ensure no rubbing occurs to the bodywork.

#### Features

- Manufactured from 3mm stainless (2mm stainless for M63000132/S) for durability and strength
- Simple to mount, supplied with hardware kit
- Anti-abrasive tape supplied for vehicle protection
- Please ensure you order the correct aerial mount for the mount positioning & vehicle year of manufacture
