Based on a Toyota LandCruiser 79 Series, this Light Attack Fire Appliance is ready to face extreme and demanding conditions.

## Features

- Ingenious water tank design;**  
*Lowers the centre of gravity of the vehicle enhancing stability on steep slopes  
 Allowing the full 550 litres of fire-fighting water to be used even while the appliance is standing on up to a 20-degree angle, on any plane*
- Sophisticated plumbing system;**  
*38mm delivery with Storz and blanking cap  
 50mm return to the tank line for pump cooling purposes and enables tank refilling from suction hose  
 50mm hard suction plumbed direct to pump inlet side with Storz fitting and blanking cap  
 Pump Control Panel (includes pressure gauge, ignition switch, throttle controls and electronic water level indicator)  
 Backflow prevention to hydrants/water mains*
- Siren, Emergency Lightbar, vehicle body, under-body and locker lighting control system - all operated from either inside the cab or from the rear Pump Control Panel**
- Interlocked scene lights**
- Storage Lockers;**  
*Manufactured from aluminium  
 Gas strut assisted and lockable  
 LED strip lighting throughout for night time operations  
 Versatile drawers in both lockers  
 Adjustable shelves in both lockers  
 Shelves are lined with fuel and chemical resistant rubber matting, preventing equipment from moving around  
 Provisions for a fridge that can be mounted on a slide  
 Slide out work bench with a load rating of 40KG*
- Warning lights and buzzers to alert when running low on water, driving with locker doors open or ladders and steps deployed**
